

Project – Covid 19 India Analysis

Instructions

- 1) The CSV file for the data is attached for you, kindly download the same.
- 2) You are required to go through the data once and then start with the analysis of the data.
- 3) This project aims to help you gain the skill for preparing the data, finding insights & creating visual charts, graphs, plots
- 4) You are required to use the libraries such as Pandas, Numpy, Matplotlib/Seaborn/Plotly.
- 5) The deadline for the final submission of project is **March 22nd 2022**.
- 6) For submission, you are required to create a private github repository with the name **(cov19-india analysis)** & add me as a contributor (my github id is <https://github.com/mavrick08/>)

And you also add the details on the google sheet i have mentioned the link below.

<https://docs.google.com/spreadsheets/d/1NbuieDXt7TevakkAIh7BU3qoXmJi4IIuGdthrak5Zjk/edit?usp=sharing>

Points will be allocated for the following:

- 1) **Cleaning of the data**
- 2) **Finding Insights**
- 3) **Visualisation.**

I want data analysis done for the whole country, also i want a section of analysis done only for the state of Maharashtra.
